Serial No.	
2	From the Dir. of Geology No 9040-1 dated 2/4/34 Furnishes the information called for in Serial 1 above. Subd with ref. to the member's minute dated 14/10/34 (Para 1 above) 1. The present strength of the menial staff is reported to be 23. This number remained the same even prior the revival of the post of the Deputy Dir. of Geology in 1927. There was also no corresponding increase in the establishment when an increase in the cadres of the sub-Asst. Geologists and Field Assistants was effected. The Dir. has submitted a proposal to Govt. for the establishment of two additional hands as Field Assistants. Some details which were called for, have not been received. The file (2377) re this was submitted to the member in charge on 24/10/34. The Dir. states that, in view of the above it is not possible to make any reduction in the present strength of the menial establishment. Submd for orders. Sd. KP 24/11/34. (Dep. 12 Submd. with reg. to the member minute dated 4/12/34 (para 10 above)

13 According to the allocation of the menial staff [illegible] the Deputy the Deputy

Serial No.

3900
4-1-35

Dir'g Geology had two peons as home orderlies. In attendance in the Govt no peon was assigned to him. The four peons were expected to attend on all the gazetted Govts and the Ministerial staff in the Govt.

... It is Govt proposes to allocate the two home orderlies attached to the Deputy Dir'g Geology (to be abolished) to the two sub-asst Geologists.

Sub Govt orders

Sd HG 16 Dev. Secy) dcg 4/1/35
31/1/35 Under Secy will Revert to home

HW 5-1-35

WD 01955—GPB—22,500—12-6-34

Reduction of the menial establishment in the Geological Department.

....

18 The present strength of the menial staff is 23, out of which 12 are peons as detailed below:-

Jamedar	1	
Daffedar	1	
Sub Daffedar	1	
Peons (office and home orderlies including watchman and chemical laboratory attendant)	9	
Total		12

19 Distribution of work prior to the abolition of the post of the Deputy Director of Geology:-

Office		6 (excluding mutchi)
Home orderlies		
2 to the Director	6	
2 to the Deputy Director		
2 to the two Assistant Geologists.		
Total		12

20. Distribution of work after the abolition:-

Office		7 (excluding mutchi)
Home orderlies		
3 to the Director	5	
2 to the two Assistant Geologists.		
Total		12

21 It is seen from the above that the number of home orderlies attached to the Director

P.T.O.

has been raised from 2 to 3 and that of office orderlies from 6 to 7 since the abolition of the Deputy Director's post, instead of allocating the extra two peons to the Sub-Assistant Geologists as stated by him.

The points for consideration are:-

(1) When a reference as to the possibility of reducing the present strength of the menial staff was made to him, the Director states that the extra two peons have to be allocated to the Sub Assistant Geologists who are touring Officers and who are entitled to a peon each according to G.O.No.Fl.1660-1720/G.F.59-31-2 dated 20th September 1932. If the circumstance at the time of the abolition of the Deputy Director's post necessitated the continuance of the two extra peons released thereby for being allocated to the two sub-Assistant Geologists, the Director should have done so then after obtaining the necessary sanction of Government. Instead of this, he utilized them for services at the office and his residence respectively.

(2) The number of touring Officers has been reduced from 7 to 6 consequent on the abolition of the Deputy Director's post and there may be room for retrenching one lascar. The Director also states that the only section under which any reduction can be thought of, if at all, are the lascar and house orderlies."

(3) One peon is attached to the Chemical Laboratory, a mutchi to packing and cutting work and three cutters are attached to the section cutting work and

~~Geological~~

and to the Geological Laboratory and - Museum. Altogether there are 5 menials. There seems to be scope for reducing one of them as the work of the mutchi and the Section cutters overlaps. Chemical Laboratory attendant may also be in charge of Geological laboratory and Museum.

In brief, the peons noted below, may be retrenched without inconveniencing the work of the department:

(1) One home orderly.
(2) One Office peon,
subject to the orders of Government in regard to the allocation of a peon each to the two Sub-Assistant Geologists.
(3) One Section cutter.
(4) One Lascar.

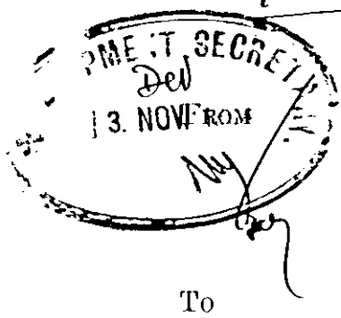
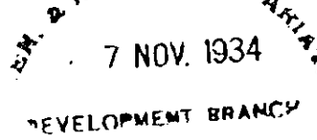
MYSORE GEOLOGICAL DEPARTMENT,

No. 9040-1

Bangalore 2nd November 193 4.



2201



A. M. SEN, Esq., M.Sc., F.G.S., etc.,
Director of Geology in Mysore,
Bangalore.

To M. Venkatanaranappa, Esq., B.A ,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Sir,

With reference to your letter No.D.2949 dated 29/30th October 1934 requesting to be informed if any reduction has been effected in the menial staff of this Department consequent on the abolition of the post of the Deputy Director of Geology, I have the honour to state as follows:-

The present strength of the menial staff is 23 as detailed below:-

Mutchi	1
Jamedar, Daffedar and Sub-Daffedar	3
Peons	9
Lascars	6
Section cutters	3
Sweeper	1
Total:	23

Their distribution and duties are as noted hereunder:-

p.t.o.

For work in the office:

Jamedar	1
Peons including one Cycle orderly	4
Mutchi	1
Sweeper	1
Watchman (one from among the peons for night duty).	1
Chemical laboratory attendant (also one from among the peons)..	1
Sections cutters solely for section cutting work and for Geological Laboratory and Museum.	3
Lascars in charge of tents and for tent work with officers on tour	6
House orderlies including Daffedar and Sub-daffedar	5
Total:	23

From the above, it will be seen that the only sections under which any reduction can be thought of, if at all, are the lascar and house orderlies since the other menials are definitely set apart for technical and other duties. But such a course of action does not appear to be feasible when the present strength of the gazetted and the non-gazetted executive staff noted in the margin is taken into account.

Gazetted staff	
1	Director.
2	Asst. Geologists, of whom one is Supdt., Govt. Chrome Mines.
2	Sub-Assistant Geologists.
2	Assistant Chemists.
7	
Non-Gazetted Executive staff.	
1	Field Assistant.
Total: 8	

The gazetted staff consists of 7 officers against whom, it will be seen, only 5 peons are shown as house orderlies (3 for Director and 1 for each Assistant Geologist) though according to Government order No.Fl.1660-1720/G.F.59-31-2 dated 20th September 1932, every gazetted officer is to be given a house orderly. Hence the number of peons deputed as house orderlies is already short.

The number of touring officers (excluding the 2 Assistant Chemists) is 6 including one non-gazetted executive officer. As each of these six officers when on tour requires a lascar for pitching tent and to be in charge of it besides a peon for camp and other work, the number of lascars we have at present, viz., 6, is just sufficient to meet the immediate requirements of the Department. As such the number of lascars cannot also be reduced without great inconvenience and trouble during tours and field work. Besides, the lascars are in charge of office stores, of tents and tent articles which have to be frequently inspected and kept in good condition.

For the information of the Government it may be stated that the present strength of the menial staff stands practically at the same level at which it stood prior to the revival of the post of the Deputy Director of Geology. No fresh menials were entertained when this post was sanctioned in 1927 as the designation of an already existing officer was merely changed. Though there was an increase in the cadre of the Sub-Assistant Geologists from 1 to 2 as per Government order No.D. 13040-41/Geol.31-28-6 dated 9th June 1929 and the entertainment of Field Assistants, there was no corresponding increase in the menial staff. The need for strengthening the menial staff has been felt all the time, but no proposals were submitted on this behalf as they were considered not likely to be sanctioned by Government. Consequently, the departmental work is being got through with some inconvenience or other during tours and the field season.

The question of the reduction of the strength of the menial staff was thoroughly gone into by the Financial Secretary to Government as per Government order Fl.1660-1720/ G.F.59.31-2 dated 20th September 1932 and as a result it was found by him that there was a total shortage of 7 peons in this office. Hence no further action was taken by him

him in the matter.

I therefore beg to submit that in view of the fact that no extra hands were entertained when the Deputy Director's post was sanctioned; that there has been no increase in the menial staff though there was an increase in the executive staff of the Department (both gazetted and non-gazetted); that its present strength is barely sufficient to get through the work, especially during tours; and also in view of the future programme of work of this Department which has already been submitted to Government wherein the entertainment of two additional executive officers has been asked for, there is no possibility of any reduction of hands in the menial staff. Hence no action has been taken in the matter.

Under the circumstances I beg to request that Government may be pleased to permit the continuance of the present menial staff of this Department.

I have the honour to be,

Sir, .

Your most obedient servant,

Director,

Mysore Geological Department.

GOVERNMENT OF MYSORE.

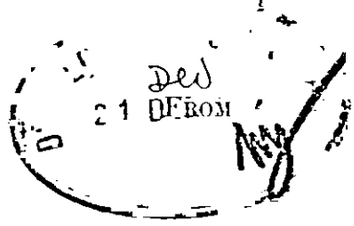
(20)

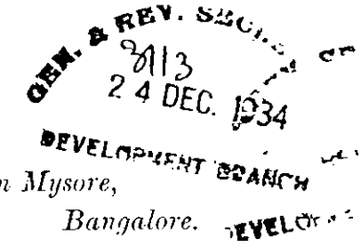
Telegraphic Address:—"GEOL."

MYSORE GEOLOGICAL DEPARTMENT,

No. 9040-3

Bangalore 20th December 193 4.





A. M. SEN, Esq., M.Sc., F.G.S., etc.,
Director of Geology in Mysore,
Bangalore.

To

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Sir,

With reference to your letter No.D.3797/Geol.47-34-4 dated 8th December 1934 requesting to be furnished with the list of allocation of the menial staff before the abolition of the post of the Deputy Director of Geology and the number of peons the Deputy Director was given under that allocation for attendance in office and as home orderlies, I have the honour to furnish the information hereunder:-

List of Gazetted officers before the abolition of the post of the Deputy Director of Geology:-

1	Director.
1	Deputy Director.
2	Assistant Geologists of whom one is also Superintendent, Government Chrome Mines.
2	Sub Assistant Geologists.
2	Assistant Chemists.
Total 8	

Distribution and duties of the menial staff before the abolition of the post of the Deputy Director of Geology:-

1 Jamedar	For office work and for attendance on officers and the ministerial staff during office hours.
1 Daffedar	
2 Peons	
1 Mutchi.	
1 Sweeper	
1 Watchman	
1 Chemical Laboratory attendant.	
3	For section-cutting and for geological laboratory and museum
6	Lascars in charge of tents & for tent work with touring officers.
6	Peons as house orderlies (including sub-daffedar)
Total:23	

p.t.o.

Under the above allocation the Director and the Deputy Director had two peons each as house orderlies and the two Assistant Geologists one each. It will therefore be seen that the two Sub-Assistant Geologists and the Assistant Chemists were not given any house orderlies owing to want of a sufficient number of peons through according to Government order No.Fl.1660-1720/G.F.59-31-2 dated 20th September 1932 every Gazetted officer is to be given a house orderly.

For attendance on the Deputy Director in the office, no peon was definitely assigned to him for this work as only four menials excluding the mutchi but including the Jamedar and the Daffedar as shown above were available for office work; and these were expected to attend on all the gazetted officers and also on the ministerial staff in the office.

As already stated in my letter No.9040-1 dated 2nd November 1934 owing to shortage of peons much difficulty used to be felt in allocating orderlies to officers going on field work. Though the executive staff was strengthened in June 1929 by an increase in the cadre of the Sub-Assistant Geologists from 1 to 2 and the entertainment of Field Assistants, yet there was no corresponding increase in the number of peons. Now that ~~the~~ two peons have been released owing to the abolition of the post of the Deputy Director of Geology, it has been found possible to allocate them to the two Sub-Assistant Geologists who are touring officers without much inconvenience being felt which was previously the case. Thus it is seen that there are no superfluous peons in this office owing to the post of the Deputy Director being abolished.

I may add that any reduction in the present strength will only result in much inconvenience for carrying on the executive work of the Department satisfactorily.

I have the honour to be,
Sir,
Your most obedient servant,

A. McLeod

MYSORE GEOLOGICAL DEPARTMENT,

No. 9040-5

Bangalore, 23rd February 1935.

GEN. SECRETARIAT
23 FEB. 1935
DEVELOPMENT BRANCH

FROM

A. M. SEN, ESQ., M.SC., F.G.S., ETC.,
Director of Geology in Mysore,
Bangalore.

To

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

SIR,

With reference to Government order No.D.5176-77/Geol. 47-34-6 dated 6/8th February 1935 received at this office on 15th February 1935 directing the retrenchment of two peons consequent on the abolition of the post of Deputy Director of Geology, I have the honour to state that though two peons have been released by the abolition of the above post, they have not become superfluous on that account. The Sub-Assistant Geologists who are touring officers have always been entitled to a peon each and owing to the fact that there was no increase in the strength of the menial staff though there was an increase in the cadre of the gazetted and non-gazetted executive staff, it has not been found possible to allocate house orderlies to the above officers. According to the Government order, these officers will have to be without peons even when they tour out in the district, the need for which has already been stressed in my letter No.9040-3 dated 20th December 1934 to Government.

In accordance with the above Government order, two peons will be retrenched. According to Article 284 of the Mysore Service Regulations, three months notice is to be given in the case of permanent employees who are to be retrenched. There being no temporary peons in this office, the provisions of the article require to be complied with.

Accordingly, the two peons have been given three months'

gK

months' notice each with effect from 23rd February 1935 and will thereafter be removed from service. If however it is the intention of Government to give effect to the retrenchment order immediately without notice, as required by M.S.R. or even without leave which they have earned, I may be kindly informed about it.

I have the honour to be,

Sir,

Your most obedient servant,

A. M. Lee

D i r e c t o r,

Mysore Geological Department.
